Facial Wash

Thoroughly cleanse without drying!

Gently yet effectively remove makeup and impurities while promoting new cell regeneration with this glycolic and lactic acid formula. This innovative formula features arctostaphylus uva-ursi leaf extract and magnesium ascorbyl phosphate to suppress Tyrosinase activity and thereby reduce melanin formation for a lighter even complexion.

The Facial Wash therefore prepares skin for optimal lightening reaction to complementary Fluoroxygen+C treatment steps for a thorough cleanse and more immediate and long-lasting lightening results.

Balancing Toner

Refresh & rebalance!

Thoroughly cleanse skin while reducing and preventing uneven skin tone with this arctostaphylus uva-ursi leaf extract and magnesium ascorbyl phosphate rich formula to suppress Tyrosinase activity thereby reducing melanin formation for a lighter, even complexion.

Glycolic and lactic acid gently exfoliate skin to remove impurities and stimulate new cell regeneration, while Sodium PCA together with a selection of cucumber, achillea millefolium and licorice extract increase water holding capacity within the stratum corneum for maximum moisture with limited dryness or redness. Skin is left cleansed, soothed, calmed and even toned.

Cleansing Milk

Clean & brighten!

An innovative blend of glycolic and lactic acid together with antioxidant and arctostaphylus uva-ursi leaf extract and magnesium ascorbyl phosphate rich ingredients thoroughly cleanse hyperpigmented skin, removing makeup and impurities while protecting vulnerable skin from environmental and UV damage. This complex formula promotes new cell regeneration for a lighter, even-toned complexion. Skin is left thoroughly clean, bright and radiant!

EyeC Eye Cream

Featuring an innovative phyto complex combining Vitamin C, Brassica extract and advanced peptides complex, this highly active eye cream brightens and lightens under-eye skin, reducing dark circles and wrinkles around the eye contour. This highly active yet delicate SPF-15 eye cream will smooth expression lines and wrinkles, reducing puffiness and protecting the delicate eye area from sun damage.

IntenC Day Cream SPF-40

Protect hyper-pigmented skin from additional sun damage and minimize the visible signs of aging. This non-oily SPF-40 day cream renews and protects skin moisture, increases skin elasticity and leaves your skin tone balanced. Enjoy the improvement with a radiant, younger looking complexion while you are well protected from future sun damage.

Soothing & Lightening Mask

Featuring an innovative combination of phyto complex, Vitamin C and Brassica extracts, this Soothing and Lightening Mask helps to normalize melanin synthesis and to decrease skin pigmentation by more than 40% after only four weeks of application. The intensity and size of brown spots are reduced and skin is deeply moisturized for a noticeably improved, even-toned and radiant complexion.

Clarifying Scrub

Designed as the first stage in the treatment process, this Clarifying Scrub combines the natural cleansing properties of Quillaja Saponaria and Saponaria Officinalis with Salicylic Acid to lather away impurities without irritating or drying the skin. It leaves skin clean and revitalized, ready for the Balancing Toner.
