# Absolute Fix Expression Line Reducing Serum

**Absolute Fix**

*Regain your skin's natural radiance with an advanced anti-aging serum!*  
Absolute Fix is a safe, effective supplement and alternative to Botulinum toxin A and other leading injectable treatments for facial expression lines.

This unique crème-serum works on a variety of levels to prevent the signs of aging and enhance your skin's appearance. First, it mimics the deconstructing action of Botulinum toxin A to gradually reduce facial expression lines and wrinkles while improving skin tone.

Second, it uses an optimal combination of vitamins A and C to promote collagen synthesis and skin rejuvenation, and vitamin B to enhance the effectiveness of the scientifically advanced polypeptide active ingredients. It is further enriched with Shea Butter for increased elasticity.

Within 15 days, skin is smoother, firmer and younger-looking. Results are more dramatic with prolonged use.
